

Welcome to the 2016-2017 School Year!

I would personally like to welcome all the students in Kane County School District to a new school year. I know the teachers are ready to welcome students into their new classrooms, and I have confidence that the teachers in our schools provide a caring environment where students feel safe, valued, and receive a high level of academic instruction. Kane District has hired eleven new highly qualified teachers for the 2016-2017 school year. I appreciate the time and effort the teachers have dedicated to their preparations for the upcoming school year. Many employees have spent numerous hours during the summer preparing for the first day of school. I appreciate the custodians and classified personnel in our district who work during the summer to assure the facilities, school lunch, and transportation are ready to begin the year. For elementary students, please write your students names on backpack, lunchboxes, and any items your students may leave behind. Also, as we transition into a new school year, please try to assure your students are receiving enough sleep to come to school ready for their new day. As you know, bedtime schedules and routines can have a dramatic impact on your students. Additionally, please review the materials sent home by the schools and your child's teacher at the beginning of the year to help them understand the procedures and expectations in the classroom. If you have any questions regarding school materials, please contact your child's teacher, or the building administrator, for additional clarifications. Students, welcome to the beginning of another successful year at Kane School District!

Ben Dalton
Superintendent
Kane School District
