

Free Breakfast Program

The first day of the 2018-2019 school year at Kane School District will begin on Tuesday, August 21st. We look forward to welcoming the students back from summer vacation with much anticipation and excitement. A new program this year will include a district pilot program to provide all students with a free breakfast to begin their school day. In order for the free breakfast program to be a success, we need everyone to please complete the free and reduced lunch application for their students. Elementary school will continue with the traditional breakfast before school and high school students will have the option of a grab and go breakfast between class periods. Educational research supports students who begin their day with breakfast are more likely to do well in school and encounter fewer social altercations during the school day. Please watch for information from your student's school for specific details.
