

District Christmas Card 2018

The Kane School District recently held its second annual Christmas card contest where secondary students from across the district were encouraged to submit a holiday photo or original artistic design for the cover of the district Christmas cards. School districts across the state as well as all KCSD employees will receive a card with the student artwork printed on the cards. We would like to thank Quality Printing for printing the cards at no cost to the district. This year Rebekah Esplin from Valley High School submitted the winning design. Rebekah received an art set and a \$25 gift card from Amazon. I would like to personally congratulate Rebekah on her accomplishments and thank all of the students who submitted their artwork for the contest. It is very difficult to select just one card when we receive so many wonderful entries.

Happy Holidays!

Ben Dalton
Superintendent
Kane School District
