

USBE Science Standards Public Comment

The Utah State Board of Education (USBE) has scheduled a Public Hearing on March 20th, 2019, from 6:00 pm – 8:00 pm at the Southern Utah University J.L. Sorenson PE Building, in Cedar City, in order to collect feedback. This will be a face-to-face format on the new State Science Standards for K-5 and 9-12. In November of 2017, the USBE approved the beginning of the revision process of new science standards, which includes a 90-day public review and feedback period from December 2018-April 2019. The final draft of the standards will be reviewed by the Utah State Board of Education and will be adopted in the time frame of April – June 2019. New K-5 and High School Science Standards will be implemented in the fall of 2020, with new state assessments in the spring of 2021. For more information on the USBE Science Standards review and adoption process, please access the following link:
