Kane County School District
Attn: Superintendent Ben Dalton & KCSB School Board

To Whom It May Concern:

We take a moment to thank the individuals, and collective efforts, of Kane County School District personnel, for the time spent researching, applying for, and implementing the Free Breakfast program for all students of Kane County School District. As concerned parents of our own children and concerned stewards for the students of Kanab Elementary School, we feel this program will succeed in giving all students a chance to better perform academically at school, as their basic food needs are met, regardless of financial income, or other identifying criteria. We look forward to hearing the results of student performance that could be directly related to this program and we hope this program will continue in future years. If we can be of further advocacy for the program, we wish you to keep us apprised, that we may assist in keeping this opportunity available for the students of Kane County School District.

Sincerely, KES Community Council, 2018
