

Kanab Civic Center Board Room Update

In the October School Board meeting, Matt Brown provided an update on the Kanab Civic Center. The Kane County School Board reviewed drawings of the new boardroom and district professional development space, which will be located in the new Kanab Civic Center. The new space has the potential to host county meetings, which can accommodate a larger group of citizens. As you may recall, the new school district room in the Kanab Civic Center was part of the original agreement in the land and building exchange between the school district, Kanab City and the County. The estimated completion date on the Kanab Civic Center is scheduled for the first week in February, 2019. The following is the proposed plan for the for the new district board/professional development room.

Ben Dalton
Superintendent
Kane School District
