

Instructional Resources: ***Internet Policy***

[Note that before an internet safety policy is adopted or revised, a school board must provide reasonable public notice and must hold at least one public meeting or hearing regarding the policy. (Utah Admin. Rules R277-495-3(6) (April 8, 2019).) In addition, school boards are required to encourage schools to involve teachers, parents, students, school employees and community members in developing local school policies. (Utah Admin. Rules R277-495-3(3) (April 8, 2019).) Moreover, school community councils are to make recommendations regarding safe technology use and digital citizenship. ([Utah Code § 53G-7-1202\(3\)\(a\)\(ii\)\(D\)](#).) Therefore, this model policy may be used as a framework but should not be adopted without meeting the public notice and hearing requirements and the form of the adopted policy should reflect the input from the various groups identified.]

Internet Protection—

Access to the internet through District computer networks or systems or by means of devices owned by the District shall be regulated by filtering software or other measures which prevent users from accessing images which are obscene or pornographic or otherwise harmful. Student online activity shall be monitored and specified staff shall have responsibility for supervision of student online activities. In addition, students shall be educated by appropriate staff members regarding appropriate online behavior, including interacting with other individuals through chat rooms or social networking websites and cyberbullying awareness and response. Each school's community council shall also provide for education and awareness on safe technology use and digital citizenship which empowers students to make smart media and online choices and parents to know how to discuss safe technology use with their children.

Due Process—

The District will cooperate fully with local, state, or federal officials in any investigation concerning or relating to any illegal activities conducted through the District system or District-owned devices.

In the event there is an allegation that a student has violated the District Internet Use Policy, the student will be provided with a notice and opportunity to be heard in the manner set forth in the student disciplinary code.

Disciplinary actions will be tailored to meet specific concerns related to the violation and to assist the student in gaining the self-discipline necessary to behave appropriately on an electronic network. If the alleged violation also involves a

violation of other provisions of the student disciplinary code, the violation will be handled in accord with the applicable provision of the code.

Employee violation of the District Internet Use Policy will be handled in accordance with District policy and collective bargaining agreement, if applicable.

Any District administrator may terminate the account privileges of a guest user by providing notice to the user. Guest accounts that are not active for more than ninety days may be removed, along with the user's files, without notice to the user.

Search and Seizure—

System users do not have an expectation of privacy in the contents of their personal files and/or personal electronic mail accounts and records of their online activity accessed via the District's electronic communications system or through District-owned devices.

Routine maintenance and monitoring of the system may lead to discovery that the user has violated or is violating the District Internet Use Policy, the student disciplinary code, or the law.

An individual search will be conducted if there is reasonable suspicion that a user has violated the law or the student disciplinary code. The nature of the investigation will be reasonable and in the context of the nature of the alleged violation.

District employees should be aware that their personal files and/or personal electronic mail accounts on the District's system or on District-owned devices may be discoverable according to the Government Records Access Management Act.

Academic Freedom, Free Speech, and Selection of Material—

Board policies on academic freedom and free speech will govern the use of the Internet.

When using the Internet for class activities, teachers will:

1. Select material that is appropriate in light of the age of the students and that is relevant to the course objectives.
2. Preview the materials and sites they require students to access to determine the appropriateness of the material contained on or accessed through the site.
3. Provide guidelines and lists of resources to assist their students in channeling their research activities effectively and properly.
4. Assist their students in developing the skills to ascertain the truthfulness of information, distinguish fact from opinion, and engage in discussion about controversial issues while demonstrating tolerance and respect for those who hold divergent views.

Parental Notification and Responsibility—

The District will notify the parents about the District network and the policies governing its use. Parents must sign an agreement to allow their student to have an individual account. Parents may request alternative activities for their child(ren) that do not require Internet access.

Parents have the right at any time to investigate the contents of their child(ren)'s email files. Parents have the right to request the termination of their child(ren)'s individual account at any time.

The District Internet Use Policy contains restrictions on accessing inappropriate material and student use will be supervised. However, there is a wide range of material available on the Internet, some of which may not be in accordance with the particular set of values held by an individual student's family. The District will encourage parents to specify to their child(ren) what material is and is not acceptable for their child(ren) to access through the District system.

Users will not use the District system or District-owned electronic devices to access material that is profane or obscene (pornography), that advocates illegal or dangerous acts, or that advocates violence or discrimination towards other people (hate literature). (See Policy FGAB and Policy DMA.) For students, a special exception may be made if the purpose is to conduct research and access is approved by both the teacher and the parent. District employees may access the above material only in the context of legitimate research.
- b. If a user inadvertently accesses such information, he or she should immediately disclose the inadvertent access in a manner specified by their school. This will protect users against an allegation that they have intentionally violated the Internet Use Policy.
