

STANDARD RESPONSE PROTOCOL

INFORMATION FOR PARENTS AND GUARDIANS

Our school has adopted The "I Love U Guys" Foundation's Standard Response Protocol (SRP). Students and staff will be training, practicing, and drilling the protocol.

COMMON LANGUAGE

The Standard Response Protocol (SRP) is based on an all-hazards approach as opposed to individual scenarios. Like the Incident Command System (ICS), SRP utilizes clear common language while allowing for flexibility in protocol.

The premise is simple - there are five specific actions that can be performed during an incident. When communicating these, the action is labeled with a "Term of Art" and is then followed by a "Directive." Execution of the action is performed by active participants, including students, staff, teachers and first responders. The SRP is based on the following actions: Hold, Secure, Lockdown, Evacuate, and Shelter.

HOLD

"In Your Classroom or Area"

Students are trained to:

- Clear the hallways and remain in their area or room until the "All Clear" is announced
- Do business as usual

Adults and staff are trained to:

- Close and lock the door
- Account for students and adults
- Do business as usual

SECURE

"Get Inside. Lock outside doors"

Students are trained to:

- Return to inside of building
- Do business as usual

Adults and staff are trained to:

- Bring everyone indoors
- Lock the outside doors
- Increase situational awareness
- Account for students and adults
- Do business as usual

LOCKDOWN

"Locks, Lights, Out of Sight"

Students are trained to:

- Move away from sight
- Maintain silence
- Do not open the door

Adults and staff are trained to:

- Recover students from hallway if possible
- Lock the classroom door
- Turn out the lights
- Move away from sight
- Maintain silence
- Do not open the door
- Prepare to evade or defend

EVACUATE

"To a Location"

Students are trained to:

- Leave stuff behind if required to
- If possible, bring their phone
- Follow instructions

Adults and staff are trained to:

- Bring roll sheet and Go Bag (unless instructed not to bring anything with them, dependent on reason for evacuation.)
- Lead students to Evacuation location
- Account for students and adults
- Report injuries or problems using Red Card/Green Card method.

SHELTER

"State Hazard and Safety Strategy"

Hazards might include:

- Tornado
- Hazmat
- Earthquake
- Tsunami

Safety Strategies might include:

- Evacuate to shelter area
- Seal the room
- Drop, cover and hold
- Get to high ground

Students are trained in:

- Appropriate Hazards and Safety Strategies

Adults and staff are trained in:

- Appropriate Hazards and Safety Strategies
- Accounting for students and adults
- Report injuries or problems using Red Card/Green Card method.

STANDARD RESPONSE PROTOCOL

PARENT GUIDANCE

In the event of a live incident, parents may have questions about their role.

SECURE

“Get Inside. Lock outside doors”

Secure is called when there is something dangerous outside of the building. Students and staff are brought into the building and the outside doors will be locked. The school might display the Building is Secured poster on entry doors or nearby windows. Inside, it will be business as usual.

SHOULD PARENTS COME TO THE SCHOOL DURING A SECURE EVENT?

Probably not. Every effort is made to conduct classes as normal during a secure event. Additionally, parents may be asked to stay outside during a Secure event.

WHAT IF PARENTS NEED TO PICK UP THEIR STUDENT?

Depending on the situation, it may not be safe to release the student. As the situation evolves, Secure might change to a Monitored Entry and/or Controlled Release.

WILL PARENTS BE NOTIFIED WHEN A SCHOOL GOES INTO SECURE?

When a secure event is brief or the hazard is non-violent, like a wild animal on the playground, there may not be a need to notify parents while the Secure is in place.

With longer or more dangerous events, the school should notify parents that the school has increased their security.

LOCKDOWN

“Locks, Lights, Out of Sight”

A Lockdown is called when there is something dangerous inside of the building. Students and staff are trained to enter or remain in a room that can be locked, and maintain silence.

A Lockdown is only initiated when there is an active threat inside or very close to the building.

SHOULD PARENTS COME TO THE SCHOOL DURING A LOCKDOWN?

The natural inclination for parents is to go to the school during a Lockdown. Understandable, but perhaps problematic. If there is a threat inside the building, law enforcement will be responding. It is unlikely that parents will be granted access to the building or even the campus. If parents are already in the school, they will be instructed to Lockdown as well.

SHOULD PARENTS TEXT THEIR STUDENTS?

The school recognizes the importance of communication between parents and students during a Lockdown event. Parents should be aware though, during the initial period of a Lockdown, it may not be safe for students to text their parents. As the situation resolves, students may be asked to update their parents on a regular basis.

In some cases, students may be evacuated and transported off-site for a student-parent reunification.

WHAT ABOUT UNANNOUNCED DRILLS?

The school may conduct unscheduled drills, however it is highly discouraged to conduct one without announcing that it as a drill. That's called an unannounced drill and can cause undue concern and stress.

Parents should recognize that the school will always inform students that it is a drill during the initial announcement.

It's important to differentiate between a **drill** and an exercise. A drill is used to create the “Muscle Memory” associated with a practiced action. There is no simulation of an event; this is simply performing the action. An exercise simulates an actual event to test the capacity of personnel and equipment.

CAN PARENTS OBSERVE OR PARTICIPATE IN THE DRILLS?

The school welcomes parents who wish to observe or participate in drills.

HOLD

In Your Room or Area

HOLD IN YOUR ROOM OR AREA.

There are situations that require students and staff to remain in their classrooms or stay out of access areas. For example, an altercation in the hallway may require keeping students out of the halls until it is resolved. A medical issue may require only one area to be cleared, with halls still open in case outside medical assistance is required.

There may be a need for students who are not in a classroom to proceed to an area where they can be supervised and remain safe.

PUBLIC ADDRESS

The public address for Hold is: "Hold in your room or area. Clear the Halls." and is repeated twice each time the public address is performed. There may be a need to add directives for students that are not in a classroom, at lunch, or some other location where they should remain until the Hold is lifted.

"Hold in your room or area. Clear the Halls.
Hold in your room or area. Clear the Halls."

An example of a medical emergency would be:

"Students and staff, please Hold in the cafeteria or your room. We're attending to a medical situation near the office."

When it's been resolved:

"Students and staff, the Hold is released. All clear."

Thank you for your assistance in making this Hold work smoothly."

PUBLIC ADDRESS - RELEASE

A Hold Action can be released by Public Address.

"The Hold is released. All Clear.
The Hold is released. All Clear."

INCIDENT COMMAND SYSTEM

The School Incident Command System should be initiated.

ACTIONS

Students and teachers are to remain in their classroom or area, even if there is a scheduled class change until the all-clear is announced.

Students and staff in common areas, like a cafeteria or a gym, may be asked to remain in those areas or move to adjoining areas like a locker room.

Students and staff outside of the building should remain outside unless the administration directs otherwise.

It is suggested that prior to closing the classroom door, teachers should sweep the hallway for nearby students. Additionally, teachers should take attendance, note the time, and conduct classroom activities as usual.

In a high school with an open campus policy, communicate as much detail as possible to students who are temporarily off-campus.

RESPONSIBILITY

Typically an administrator is responsible for initiating a Hold. However, anyone should be able to call for a Hold if they observe something happening that would require this action.

PREPARATION

Student, teacher, and administrator training.

DRILLS

Hold should be drilled at least once a year, or as mandated by state requirements.

CONTINGENCIES

Students are trained that if they are not in a classroom they may be asked to identify the nearest classroom and join that class for the duration of the Hold.

EXAMPLES OF HOLD CONDITIONS

The following are some examples of when a school might initiate a Hold:

- An altercation in a hallway;
- A medical issue that needs attention;
- Unfinished maintenance operation in a common area during class changes.

SECURE

Get inside Lock Outside Doors

SECURE GET INSIDE, LOCK OUTSIDE DOORS.

The Secure Action is called when there is a threat or hazard outside of the school building. Whether it's due to violence or criminal activity in the immediate neighborhood, or a dangerous animal in the playground, Secure uses the security of the physical facility to act as protection.

PUBLIC ADDRESS

The public address for Secure is: "Secure! Get Inside. Lock outside doors" and is repeated twice each time the public address is performed.

"Secure! Get Inside, Lock outside doors.
Secure! Get Inside, Lock outside doors."

"Students and staff, the school is currently in the Secure Action due to [cause] in the neighborhood. No one is allowed in or out of the building at this time. Stay inside and continue with your day."

PUBLIC ADDRESS - RELEASE

A Secure Action can be released by Public Address.

"The Secure is released. All Clear.
The Secure is released. All Clear."

"Students and staff, the Secure is released. All clear.
Thank you for your assistance with making this Secure work smoothly."

ACTIONS

The Secure Action demands bringing people into a secure building and locking all outside access points.

Where possible, classroom activities would continue uninterrupted. Classes being held outside would return to the building and, if possible, continue inside the building.

There may be occasions when students expect to be able to leave the building - end of classes, job commitment, etc. Depending on the condition, this may have to be delayed until the area is safe.

During the training period, it should be emphasized to students as well as their parents that they may be inconvenienced by these directives, but their cooperation is important to ensure their safety.

ADDING A LIFECYCLE TO THE SECURE PROTOCOL

As a situation evolves there may be more information available to guide decision making. With the Secure Protocol, there is the option to transition from the initial response of "No one in or out" to some access control.

NO ONE IN OR OUT

The initial directive and practice during the Secure Action is to retain students and staff within the building and prevent entry into the building.

CONTROLLED RELEASE

An unresolved, but not directly evident, situation at the end of the school day may warrant a Controlled Release. During a Controlled Release, parents or guardians may be asked to pick up students rather than have them walk home. Buses may run as normal, but increased monitoring of the bus area should occur. There may be additional law enforcement presence.

MONITORED ENTRY

When there is a perceived threat but it's not immediate, entrances may be attended by security or law enforcement and anyone entering the building is more closely monitored. Students and staff walking between buildings or going to the parking lot might be escorted with heightened awareness.

SCHOOL IS SECURED
MONITORED ENTRY AND CONTROLLED RELEASE

 **STANDARD RESPONSE PROTOCOL**

INCIDENT COMMAND SYSTEM

The School Incident Command System should be initiated.

RESPONSIBILITY

During a Secure Action, administration or staff may be required to lock exterior access points. Staff members assigned "Primary Responsibility" for a "Secure Zone" would follow the designated protocol during a drill as well. These areas may include doorways, windows, loading docks, and fire escape ladder access points. The assigned staff is designated as having "Secure Duty."

A person should also be assigned "Secondary Responsibility" for Secure Duty in the event the person with Primary Responsibility is absent or unable to perform the protocol.

Assign someone to attach the Secure posters out-facing to building entry doors, alerting potential visitors of the Secure condition.

REPORTED BY

Secure is typically reported by local emergency dispatch to the school office. The office staff then invokes the public address and informs the administration.

It may also be reported by students, staff or teachers if a threat is directly observed outside of the building.

PREPARATION

Identification of perimeter access points that must be locked in a Secure Action defines the Perimeter. In the event a perimeter cannot be secured, identify areas within each building that can be secured.

Secure Zones - areas of a school or campus with exterior access points - should be established and protocols developed to ensure that those on "Secure Duty" attend to all areas in their zone.

Preparation includes identification of staff with Primary and Secondary responsibility and assignment of these duties.

DRILLS

Secure drills should be performed at least twice a year, or as mandated by state requirements. At least one should be performed while outdoor activities are in progress.

CONTINGENCIES

There may be physical attributes to the campus that mandate special handling of a Secure Action. An example would be a campus where modular buildings are present. If the modular building cannot be secured, it may be best for students to Evacuate to the main building rather than going to Secure in the modular building. Listen for specific additional directives.

If the school is a distributed campus (multiple permanent buildings), they will have to consider what their perimeter is. In a perceived and indirect threat, they may decide that extra supervision for class changes between buildings is sufficient and appropriate.

If during a Secure Action, an additional hazard manifests (i.e.: fire, flood, hazmat), then additional directives will be given for the appropriate response.

EXAMPLES OF SECURE CONDITIONS

The following are some examples of when a school or emergency dispatch might call for a Secure Action.

- An unknown or unauthorized person on the grounds
- Dangerous animal on or near the grounds
- Criminal activity in the area
- Planned police activity in the neighborhood

SECURE AND HOLD

Sometimes people become confused about the difference between "Secure" and "Hold." During a Hold, the halls are cleared, students remain in their classrooms with their teachers and business continues as usual. If people are outside, they remain outside. During a Secure, people are brought inside, and all activities inside the school continue as usual but no one will move in or out of the building. The main difference is that during a Secure the halls are open and may be utilized by students and staff as needed. People inside the school may not notice any difference in their daily routines during a Secure.

Remember, the main difference between the two is that a Secure is enacted when a threat or hazard is outside of the school. A Hold is used when there is a need for the halls to remain empty, meaning the issue is inside the building. During both instances, classroom instruction should continue as normal.

LOCKDOWN

Locks, Lights, Out of Sight

LOCKDOWN LOCKS, LIGHTS, OUT OF SIGHT

Lockdown is called when there is a threat or hazard inside the school building. From parental custody disputes to intruders to an active assailant, Lockdown uses classroom and school security actions to protect students and staff from the threat.

PUBLIC ADDRESS

The public address for Lockdown is: "Lockdown! Locks, Lights, Out of Sight!" and is repeated twice each time the public address is performed.

"Lockdown! Locks, Lights, Out of Sight!
Lockdown! Locks, Lights, Out of Sight!"

ACTIONS

The Lockdown Action demands locking individual classroom doors, offices and other securable areas, moving occupants out of the line of sight of corridor windows, turning off lights to make the room seem unoccupied, and having occupants maintain silence.

There is no call to action to lock the building's exterior access points. Rather, the protocol advises leaving the perimeter as is. The reasoning is simple - sending staff to lock outside doors exposes them to unnecessary risk and inhibits first responders' entry into the building. If the exterior doors are already locked, leave them locked but do have a conversation with your local responders so they understand and can gain access during a Lockdown. The best option is to have the ability to lock and unlock doors remotely.

Training reinforces the practice of not opening the classroom door once in Lockdown. No indication of occupancy should be revealed until first responders open the door.

If the location of the threat is apparent and people do not have the option to get behind a door, it is appropriate to self-evacuate away from the threat.

INCIDENT COMMAND SYSTEM

The School Incident Command System should be initiated.

RESPONSIBILITY

The classroom teacher is responsible for implementing their classroom Lockdown. If it is safe to do so, the teacher should gather students into the classroom prior to locking the door. The teacher should lock all classroom access points and facilitate moving occupants out of sight.

REPORTED BY

When there is a life safety threat on campus, a Lockdown should be immediately initiated by any student or staff member. Initiating the Lockdown may happen through various methods, or a combination of methods, depending on the procedures and alert systems utilized by each school and district. Lockdown alerts may be made by word of mouth, phone, radio systems, intercom, panic buttons, or more advanced forms of technology. Plan the communication method in advance to set expectations for students and staff. Regardless of the method(s) of notification, the initiation of a Lockdown should be consistent, simple and swift, and include immediate notification of school administration and local law enforcement agencies.

PREPARATION

Identification of classroom access points that must be locked in the event of a Lockdown is essential preparation. These may include doorways, windows, loading docks, and fire escape ladder access points.

A "safe zone" should also be identified within the classroom that is out of sight of interior windows. Teachers and students should be trained to not open the classroom door, leaving a first responder, school safety team member or school administrator to unlock it.

DRILLS

Lockdown drills should be performed at least twice a year, or as mandated by state requirements. If possible one of these drills should be performed with local law enforcement personnel participation. At a minimum, law enforcement participation in the drill should occur no less than once every two years.

A drill should always be announced as a drill.

For more information, see the "SRP Lockdown Drill" section of this book.

LOCKDOWN

Locks, Lights, Out of Sight

CONTINGENCIES

Students and staff who are outside of classrooms when a Lockdown is announced should try to get into the closest available classroom, or room with a door that can be secured. In the event someone cannot get into a room before doors are locked, they should be instructed about other options. In this situation, students and staff should be trained to hide or even evacuate themselves away from the building or area. Students and staff should receive training on where to go if they self-evacuate so they can be safe and accounted for.

If during a Lockdown an additional hazard manifests inside the school such as a fire, flood, or hazmat incident, then situational decisions must be made. There should be discussions about reacting to a fire alarm if it is activated during a Lockdown. This may require following additional directives of the SRP.

EXAMPLES OF LOCKDOWN CONDITIONS

The following are a few examples of when a school or emergency dispatch might call for a Lockdown.

- Dangerous animal within a school building
- Intruder
- An angry or violent parent or student
- Report of a weapon
- Active assailant

THE DURATION OF A LOCKDOWN

A question that occasionally arises is “How long does it take to release a Lockdown?” The answer is, “That depends, but probably longer than you want to hear.”

The Foundation has heard accounts of a Lockdown lasting for hours. In one case - a weapon report - the school was in Lockdown for over three hours. In another - an active assailant in the building - it took about an hour after the issue was resolved for law enforcement to clear the classrooms.

RED CARD/GREEN CARD

Red Card/Green Cards should NOT be used for a Lockdown. Based on a number of tactical assessments, the overwhelming consensus is that this practice provides information to an intruder that there are potential targets in that room.

CELL PHONES DURING A LOCKDOWN

It is not uncommon for school administrators to ban cell phone use during a Lockdown. Parent instincts may be at odds with that ban. Often, one of the first things a parent will do when there is a crisis in the school is text or call their child.

In evaluating actual Lockdown events, the initial crisis may only take minutes. After the threat is mitigated, Law Enforcement typically clears the school one classroom at a time. This process may take significant time. During this time, both parents and students can reduce stress through text communications. This also provides a classroom management strategy. Selecting three or four students at a time, a teacher may ask students to text their parents with a message like this: “We’re in Lockdown. I’m okay and I’ll update you every 5 minutes.” Certainly, if a threat is imminent, texting would be discouraged.

There is also an opportunity to ask the students to text their parents with crafted messages as an event unfolds. For example, “Pick me up at Lincoln Elementary in one hour. Bring your ID,” might be recommended for student-parent reunification.

It may also be beneficial to have students turn off both Wi-Fi and cellular data services in order to free up bandwidth for first responders, while still allowing SMS text messaging.

EVACUATION

If an actual violent incident occurred, expect that the building will be evacuated by Law Enforcement since it has become a crime scene.

EVACUATE

A Location may also be provided

EVACUATE TO A LOCATION

Evacuate is called when there is a need to move people from one location to another for safety reasons.

An on-site evacuation is conducted usually because of a mechanical failure that would disrupt the school day, such as a power outage. If it can't be resolved quickly, the school may have to plan for early dismissal.

An offsite evacuation may be necessary when it's no longer safe to stay in the building such as a gas leak or bomb threat. In this case, people will be allowed to bring their personal items with them.

If there has been a violent event at the school, an off-site evacuation will almost always be necessary since the school will be deemed a crime scene. People may or may not be able to bring their personal items with them.

REUNIFICATION AFTER AN EVACUATION

When the students and staff are evacuated off-site, they may be walking to a different location or being transported to the location and there will be an organized reunification of students and parents/guardians at that site.

For in-depth information about conducting a Reunification, please refer to The Standard Reunification Method: <https://iloveguys.org/The-Standard-Reunification-Method.html>

PUBLIC ADDRESS

The public address for Evacuate is: "Evacuate! To a Location" and is repeated twice each time the public address is performed. For instance, "Evacuate! To the Flag Pole."

"Evacuate! To a location.
Evacuate! To a location."

ACTIONS

The Evacuate Action demands students and staff move in an orderly fashion to a safe area.

INCIDENT COMMAND SYSTEM

The School Incident Command System should be initiated.

RESPONSIBILITY

The classroom teacher or administrator is usually responsible for initiating an Evacuation. The directives or actions may vary for fire, bomb threat, or other emergencies. Other directions may be invoked during an evacuation, and students and staff should be prepared to follow specific instructions given by staff or first responders.

PREPARATION

Evacuation preparation involves the identification of facility evacuation routes, evacuation assembly points and evacuation sites, as well as student, teacher, and administrator training. An evacuation site usually becomes the reunification site, so plan accordingly. Ideally, plan to have an offsite evacuation facility that's within walking distance and another farther away from the school in case the hazard is in the immediate area. Have an MOU in place with each site to outline expectations and responsibilities in advance. A sample MOU for this can be downloaded from iloveguys.org/The-Standard-Response-Protocol.html

An Evacuation plan must include having all supplies that people with disabilities may need such as medications, supplementary mobility devices and accessible routes for mobility-impaired people.

EVACUATION ASSEMBLY

The Evacuation Assembly refers to gathering at the Evacuation Assembly Point(s). Teachers are instructed to take roll after arrival at the Evacuation Assembly Point(s).

Schools with large populations might plan on having multiple, predetermined assembly points to help manage crowds.

DRILLS

Evacuation drills should be performed at least twice a year or as mandated by state law. An Evacuation drill is very similar to a fire drill. Fire drills are often required regularly and constitute a valid Evacuation drill.

Drills are also a good opportunity to talk about and practice alternate exit routes to use in case a certain area is not safe to walk through.

CONTINGENCIES

Students are trained that if they are separated from their class during an Evacuation, then joining another group is acceptable. They should be instructed to identify themselves to the teacher in their group after arriving at the Evacuation Site.

RED CARD/GREEN CARD/MED CARD

After taking roll, the Red/Green/Med Card system is employed for administrators or first responders to quickly visually identify the status of the teachers' classes. Teachers will hold up the Green card if they have all their students and are good to go. They hold up the Red card if they are missing students, have extra students or another problem, and use the Med card to indicate their need for some sort of medical attention.

See the Materials section for examples.

POLICE LED

Evacuation after a Lockdown

POLICE LED EVACUATION

In the rare situations where law enforcement is clearing classrooms and escorting students and staff out of the classroom and through the building, it is important to have provided advance instruction on what to expect.

PUBLIC ADDRESS

There may or may not be any public address notifying students and staff that law enforcement is performing these actions.

ACTIONS

As officers enter the classroom, students and staff must keep their hands visible and empty. It is unlikely they will be able to bring backpacks, purses or any personal items with them during a Police Led Evacuation. Students may be instructed to form a single file line and hold hands front and back, or students and staff may be asked to put their hands on their heads while evacuating.

WHAT TO EXPECT

Prepare students and staff that during a Police Led Evacuation, officers may be loud, direct and commanding. Students and staff may also be searched both in the classroom and again after exiting the building.

EMOTIONAL RESPONSIBILITY

There is a conversation occurring with law enforcement regarding their role in post-event recovery. This is a growing concern, and warrants conversations between schools, districts, and agencies about how to keep students safe, and reduce trauma that might be associated with a Police Led Evacuation.

PREPARATION

Student, teacher, and administrator training.

In the event of a police led evacuation, policies should be in place on how to give key access to law enforcement officers evacuating all rooms in the school building.

MEDIA MESSAGING

To the media/community after an event.

Example Situation: Violent Event

"On (date) at (time of day), (agency name) responded to (school name) in reference to (event type). Officers assisted with safely escorting students and staff out of the school and to the Evacuation and Reunification site where the (School District) was able to initiate the Reunification process."

DISPATCH MESSAGING

To responding officers during an event.

Example Situation: Police Led Evacuation

"(Dispatched Units) respond to (school name) to assist with Evacuation of students and staff. Assistance is needed to accompany individuals out of the school and to the Secure Assembly Area at (location). Respond to the Command Post for your assignment. (time stamp)"

LAW ENFORCEMENT MESSAGING

To responding officers during an event.

Example Situation: Gas Leak

(Police unit name) respond to (area near the school) to assist with evacuating students from (school name) because of a gas smell in the building. Meet with (supervisor) for further information to assist with Evacuation and Reunification.

LAW ENFORCEMENT GUIDANCE

Once the threat has been neutralized, it is recommended that first responders re-group and slowly move to the evacuation phase. Identify the location of the evacuation area or bus staging area prior to releasing classrooms. Take this time to discuss emotional responsibility when releasing classrooms. Begin releasing people from classrooms and offices to the designated area.

Law enforcement officers may also be needed to assist with directing traffic and ensuring the evacuation process is being done safely.

CONTINGENCIES

In an off-site evacuation to a reunification site, Incident Commanders should consider leaving students and staff in their rooms until transportation arrives. Your team can also discuss communicating to classrooms that the threat has been minimized enough that they may relax and wait for evacuation.

When it's time, each room can be cleared directly to the buses in order to minimize trauma.

It is recommended to avoid the scene of the incident when exiting. Transport directly to the Reunification Site.

TRANSPORTATION

During a police led evacuation, transportation is going to be initiated. Have a policy in place for your transportation department or contracted transportation company so they are ready to respond in a timely manner with enough buses.

SHELTER

State the Hazard and Safety Strategy

SHELTER STATE THE HAZARD AND SAFETY STRATEGY

Shelter is called when specific protective actions are needed based on a threat or hazard. Training should include response to threats such as tornadoes, earthquakes, hazardous materials situations or other local threats.

PUBLIC ADDRESS

The public address for Shelter should include the hazard and the safety strategy. The public address is repeated twice each time the public address is performed.

"Shelter! For a hazard. Using safety strategy.
Shelter! For a hazard. Using safety strategy."

For a tornado, an example would be:

"Shelter for a tornado. Go to the tornado shelter.
Shelter for a tornado. Go to the tornado shelter."

After the danger has passed:

"Students and staff, the Shelter is released. All clear."

Thank you for your assistance and patience during the Shelter."

HAZARDS MAY INCLUDE

- Tornado
- Severe weather
- Wildfires
- Flooding
- Hazmat spill or release
- Earthquake
- Tsunami

SAFETY STRATEGIES MAY INCLUDE

- Evacuate to Shelter area
- Seal the room
- Drop, cover and hold
- Get to high ground

ACTIONS

Collaboration with local responders, the National Weather Service, and other local, regional and state resources will help in developing specific actions for your district response.

INCIDENT COMMAND SYSTEM

The School Incident Command System should be initiated.

RESPONSIBILITY

Sheltering requires that all students and staff follow response directives. Districts should have procedures for all foreseeable local hazards and threats which include provisions for those individuals with access and functional needs.

PREPARATION

Identification and marking of facility Shelter areas.

DRILLS

Shelter safety strategies should be drilled at least twice a year, or as mandated by the state.

STATE THE HAZARD AND SAFETY STRATEGY

Using the Shelter Protocol and stating the hazard allows for an understanding of the threat and the associated protective actions. Most often, the Shelter Protocol is utilized for tornadoes and other severe weather, in which case it would include the Shelter location for students and staff, and what protective posture or action they should take.

Sheltering for a hazardous materials spill or release is very different. In the case of a hazmat situation, students and staff would be directed to close their windows, shut down their heating and air conditioning units and seal windows and doors to preserve the good inside air while restricting the entry of any contaminated outside air. Listening to specific directives is critical to successful emergency response.

PLAIN LANGUAGE

NIMS and ICS require the use of plain language. Codes and specific language that are not readily understood by the general public are no longer to be used. The SRP uses shared, plain, natural language between students, staff and first responders. If there are specific directives that need to be issued for a successful response in a school, those should be made clearly using plain language. There is nothing wrong with adding directives as to where to Shelter, or what protective actions should be used in the response.

CUSTOMIZATION

The classroom poster is sufficient for generic Shelter guidance. The Foundation recognizes that localized hazards may need to be added to the poster. For this reason, the Public Address poster is available in MS Word for customization (<https://iloveguys.org/The-Standard-Response-Protocol.html>).
